BETTER LIVING NOW

HOME BROCHURE 2023

BETTER LIVING NOW

-

Hawke's Bay Homes has been at the forefront in the off-site construction for nearly 20 years. We build modern houses that are suitable for many uses including family and holiday homes, income generating secondary dwellings, granny flats, or workers/ visitors accommodation.

Our range of homes has been carefully designed and refined over recent years to be diverse in use. We have a range of popular designs ranging from 1 bedroom to 4 bedrooms with open plan living and outdoor decks.

We are looking forward to welcoming you at Hawke's Bay Homes to guide you through your home building process. It is a very special and exciting time and we are here to support you on every step of the way.

BETTER LIVING NOW

Building a home or holiday house should be stress-free, exciting, and enjoyable and that's what we deliver. We take care of everything for you including council building consents, site design, planning, and service installation as well as working with one of New Zealand's leading house moving businesses.

3+ BEDROOMS

Kaweka 132m² | 3 bedrooms | 2 bathrooms

This is the perfect family home with a spacious 132m² open living floor plan. This beautiful home not only offers a great indoor, outdoor flow but also has the added advantage of a full-sized master bedroom with an en-suite and walk-in wardrobe.

Otane 100m² | 3 bedrooms | 2 bathrooms

Modern monopitch home with a central living space containing kitchen/dining and living space under a raking ceiling with high windows creating a light spacious feeling.

Mangleton 128m² | 3 bedrooms | 2 bathrooms

A family home with spacious central living with three bedrooms at either end of the home supported with two bathrooms and a separate toilet. This home comes complete with a central raking ceiling over a large kitchen and a walk-in pantry.

Ohara 103m² | 3 bedrooms | 1.5 bathrooms

Covered back and front decks give options for access into this three-bedroom, one-bathroom home. Large living space with a grooved raking ceiling. Back door entry to laundry with access to separate toilet.

3+ BEDROOMS

Pourerere 121m² | 3 bedrooms | 2 bathrooms

Three spacious bedrooms accessed off a central living/ dining space with high raking ceilings. An island kitchen links to a large pantry and a back door entrance. The en-suite and bathroom are fitted with large showers with options for tiled finish or acrylic showers.

Te Awa 80m² | 3 bedrooms | 1 bathroom

The popular Te Awa model is a suitable home for a couple or small family. Central living with three bedrooms with different options for kitchen layouts possible. This popular model comes with a covered veranda. A rear-entry door accesses a short passage with access to laundry, bathroom, and separate toilet.

Karamu 100m² | 3 bedrooms | 1.5 bathrooms

A 3 bedroom configuration with an open plan living area, kitchen, 1.5 bathrooms, and laundry space. It offers an uncomplicated gable roof with a focused covered porch protected by buttress walls and lined with cedar planks. Left/right versions available.

Elsthorpe 139m² | 4 bedrooms | 2 bathrooms | 1 office

This 4 bedroom home is designed and styled for family living. Perfect for a large family, this home has all the features and comforts you would expect from a modern home. A large kitchen with breakfast bar with open living plan, master bedroom with en-suite as well as an office.

2 BEDROOMS

Irongate 80m² | 2 bedrooms | 1 bathroom

Inspired by our popular Karamu model into an 80m² size, with two bedrooms, one bathroom, and a formal entrance door. The two-deck spaces are linked to the living space and a generous kitchen under a raking ceiling with a grooved effect. Exterior feature walls are lined with oiled cedar planks to complement the covered deck.

Longlands 100m² | 2 bedrooms | 2 bathrooms

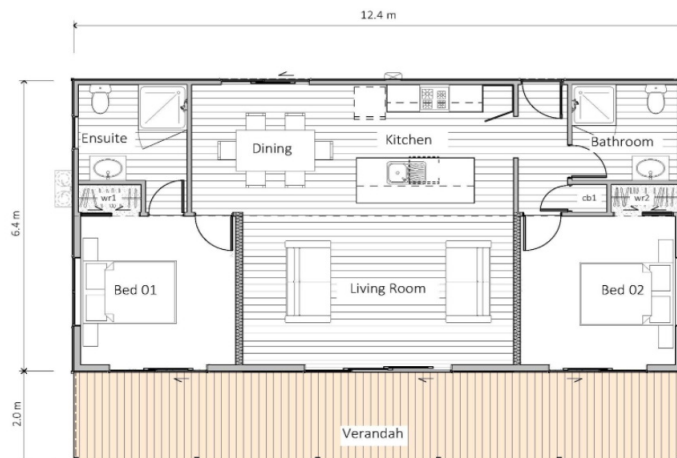

Maximised living space in this monopitch home with central living, no passage, two-bedroom and two bathrooms. A small room to the rear of the home can be configured as a small bedroom or office.

Eastcoast 80m² | 2 bedrooms | 1.5 bathrooms

A modern two-bedroom monopitch home or bach with central living and 1.5 bathrooms. The kitchen/dining is located to the rear with living and bedrooms linked to the covered veranda decking.

Tukituki 62m² | 2 bedrooms | 1 bathroom

Simple two-bedroom home with separate spaces for kitchen/ dining and living. Covered front door deck links to living space allowing outdoor indoor flow. Gable or hip roof options available

2 BEDROOMS

Riverslea 50m² | 2 bedrooms | 1 bathroom

Ideal as an Air BNB or visitor accommodation unit with two double bedrooms on each side of a large bathroom with a wet floor shower configuration. The living space contains a functional kitchen exiting onto an optional outside deck.

Ngaruroro 128m² | 2 bedrooms | 1 bathroom

With two double rooms and a large living space, this self-contained home fits well in town or country settings. Options available for different roof designs with decking back or front are possible.

Gwavas 50m² | 2 bedrooms | 1 bathroom

After the major 2023 flooding Hawke's Bay Homes has come up with a relief housing solution that will allow you to live on your land while your home gets rebuilt.

This 50m² build offers two bedrooms, and one bathroom with an open living plan that holds a kitchenette and is great for a temporary housing solution and a future rental or Air BnB.

1 BEDROOM

Parkvale 50m² | 1 bedroom | 1 bathroom

This compact home suits visitor accommodation or is perfect for an additional home on your property. This home is self-contained with one bedroom and bathroom. It has two outdoor living spaces, one with covered entry.

WHY HAWKE'S BAY HOMES

Privately Owned & Operating for over 20 years

Privately owned and operating for over two decades, Hawke's Bay Homes is the building company locals trust and depend on for quality, flexibility, and progress. These values are the reason why many of our customers have come back to work with us.

Beautiful Designed & Crafted Homes

A lot of thought, design creative, practical building experience, and livability options have been put into the creation of our Hawke's Bay Homes range. All our homes have been designed by an innovative and experienced architectural team. Each home is designed to maximise the living spaces and create a sense of space for every room in the house.

Seamless Design & Building Experience

Building a home or holiday house should be stress-free, exciting, and enjoyable and that's what we deliver. We take care of everything for you including council building consents, site design, planning, and service installation (water, waste, power) as well as working with one of New Zealand's leading house moving businesses.

Cost Transparency & Clear Communication

At Hawke's Bay Homes the costs of your build are communicated from the start. Our team will provide you with regular updates during your building process, so you know what is happening. You are also more than welcome to come and visit your new home at any stage of the process. We even encourage you to pop in at least once to check on your new build. Just let us know you're coming, and we will also put the kettle on.

Cost Effective & Efficient Building Times

There's no need for delays due to poor weather, lag times between sub-contractors, and council consenting. Hawke's Bay Homes has a purpose-designed prefabrication facility in Hastings. We have the capacity to build up to 6 buildings at any given time in a covered weatherproof facility. We can design, build and transport to your property in 12-16 weeks.

Features & Specifications

All our transportable homes are built with high quality, high-end finishes, and fittings and are completed to an impeccable standard. Remember too of course, that you can make any changes that best reflect your personality and lifestyle.

WHY HAWKE'S BAY HOMES

Licensed Building Practitioner

We have been in business for over 20 years and as a Licensed Building Practitioner, we are dedicated to providing you with the best service possible. We take great pride in the quality of our work and stand behind our buildings. We enjoy making our clients happy and love handing the keys over to your new home. It's why we are in the business.

Members of NZCB & Halo Guarantee

Hawke's Bay Homes is a member of NZCB through its parent company MSR Construction Ltd. What this means is that we are passionate about providing superior workmanship to meet the NZCB membership criteria. This membership states we are trade qualified and able to offer the Halo 10-year residential guarantee.

KEY FEATURES

A lot of thought, design creative, practical building experience, and livability options have been put into the creation of our Hawke's Bay Homes range. Perfect for the first home buyer, revenue-generating on-site accommodation, or a holiday home for the beach or lake. We can design, build and transport to your property in 12-16 weeks. There are many advantages of choosing a prefabricated transportable home over traditional on-site construction.

Beautiful & Functional Designs

Stylish, and conventional are all hallmarks of the interior of our homes. Each home is designed to maximise the living spaces and create a sense of space for every room in the house. We build within a covered facility, so as to ensure all building materials are dry and weatherproof and there's no need for delays due to poor weather.

Warm, Dry & Healthy Homes

Warm, dry, and healthy homes. Our houses are fully insulated and our buildings are designed to maximise and create a sense of space and functionality. All our buildings meet the latest NZ Building Code regulations.

Bathroom & En-suite

Hawke's Bay Homes has selected a quality standard range of bathroomware to cater to every design and function aspect. We can also put you in touch with our bathroom suppliers if you are after other finishes.

Bespoke Custom Made Kitchens

Our kitchens are contemporary and functional. We use modern fixtures and fittings and our kitchens are fully wired and plumbed - ready to be connected to services once on site.

Appliances

We've put together some great packages to suit your needs and budget. If you know what you are after, we can connect you to our suppliers who will work with you directly to get the right ones at the right price.

Home Exterior

Hawke's Bay Homes uses traditional and modern contemporary external cladding including cedar and timber weatherboards. We also use quality window and door joinery.

Flooring

Hawke's Bay Homes has a selection of premium flooring options to choose from.

Electrical

All the electrical work is fitted and complete, ready for on-site connection. All our homes include LED lights for interior and exterior and multiple power points are used throughout. Extractor fans are fitted in the bathroom and laundry for excellent ventilation. Phone socket, TV ports, and router connection points are included.

Plumbing & Heating

Fully plumbed and ready for on-site connection our homes come with either a gas infinity or insulated hot water cylinder. We can also install heat pumps or wood fires.

Solar Options

Wanting to go off grid? No problem at all. Have a chat with us.

A photograph of a modern house with a large glass door and a dog lying on the patio. The house has a dark exterior and a light-colored interior. A dog is lying on the patio in front of the glass door. The patio is made of light-colored stone tiles. There are some green plants in the foreground. The sky is blue.

TESTIMONIAL

"The reason we chose Hawke's Bay Homes was due to their passion to build quality and cost-effective architectural designed homes as well as them being located in Hawke's Bay. We were in a time crunch and off-site construction just made sense. The team made everything happened for us. Great experience. "

OUR FACTORY

Hawke's Bay Homes has a purpose-designed prefabrication facility at 1139 Maraekakaho Road, Hastings. We have a long history of being based in Irongate and we have the capacity to build up to 6 buildings at any given time in a covered weatherproof facility.

The process of building

The buildings are alarmed and monitored so no time is wasted packing up equipment each day. There is limited waste as all offcuts are re-sorted into reusable products such as pegs and profiles.

Reducing the impact on our environment

We believe that building off-site in our purpose-built factory is the most sustainable building method as it reduces transport needs, is more energy efficient and has less impact on the immediate environment. Other key drivers are;

- the use of sustainable practices and materials
- standardisation of parts
- careful and efficient use of all materials
- increase efficiency as well as reducing waste through clever planning and dedicated recycling stations

Here at Hawke's Bay Homes we aim to be the leader in construction waste minimisation in Hawke's Bay. We do have dedicated recycling stations on site.

Benefits of building in a factory

- Costs savings compared to conventional on-site builds
- No site construction delays due to weather
- Sustainable buildings and waste minimisation
- Innovative designs and consenting managed by us
- Certainty of on time delivery and budget
- Undercover construction provides assurance for dry and on time production methods.

OUR PROCESS

-

Our Hawke's Bay Homes philosophy is to provide you with a building process that is stress-free, exciting, and enjoyable. Please see our Step-by-Step guide below.

STEP 1: SELECT A HOUSING DESIGN - We have a wide range of designs available that streamline the building as well as the council consenting process. The quickest and most cost-effective option is to choose one of our standard floor plans. If you're after a house that's a little bit different we can modify the designs to your liking. When we sit down with you and work out your project requirements, we also discuss internal and external wall colour schemes, flooring, kitchen, bathrooms as well as all fixtures and fittings.

STEP 2: SITE INSPECTION - Our team will come out to your property and undertake a preliminary site check. This meeting is to identify site access, as well as infrastructure requirements. We will also determine the compliance reports that may be required for your project - for example; geotechnical report, wastewater design, and resource consents.

Step 3: Estimate - If you like one of our standard floor plans and specifications for your chosen home, we can go ahead and provide you with an estimate before preparing your purchase contract.

STEP 4: CONTRACT/ SCOPE OF WORK PREPARATION - Once you are happy with the details and have agreed on the price estimate, we will prepare your scope of work and contract. The scope of work includes the following: all details of your build, any colour choices, kitchen designs, plumbing, appliances, floor plans, and if responsible for on-site work, subcontractor quotes are also included.

STEP 5: CONTRACT SIGNED - Once the contract has been signed and consent is approved, we can start your build. We will be able to give an indication of time frames for likely completion, which is subject to materials, weather, and site conditions. We do require a 10% deposit at this stage, which is paid into our lawyer's trust account until consent is issued.

STEP 6: CONSTRUCTIONS BEGINS - We keep in touch with you on a regular basis during the build, sending you photos of the progress and keeping you in the loop of what is happening. It is an exciting process and you are more than welcome to come and visit your new home at the various stages of your build. We encourage each client to pop in at least once to check on their new build. Just let us know you're coming so we can arrange a time and take you on a tour of your new building.

OUR PROCESS (CONT)

STEP 7: HOUSE TRANSPORTATION & DELIVERY - This is the exciting stage - your house is nearly finished. We have partnered with one of New Zealand's most experienced house-moving businesses and they love a challenge! They have transported houses to some of the most remote, steepest, and most difficult sites across New Zealand.

STEP 8: CONNECTING OF SERVICES - On-site work begins once the house is safely on its foundation. We can do all the finishing touches including connecting to your services. All that's missing is your furniture and the personal things that make it yours.

STEP 9: KEY HANDOVER - Once we have completed all our on-site tasks we will meet you for a Final Inspection. We will go through the house with you, and hand over the keys to your brand new home. Congratulations!

A modern living room with a large glass door leading to a deck, a wood-burning stove, and a white cabinet. The room features light-colored walls, a wooden floor, and a large window with white curtains. A white sofa is visible in the foreground, and a large glass door leads to a deck with a wooden railing. A wood-burning stove is positioned against the wall, and a white cabinet with glass doors is on the right. A large blue text box is overlaid on the right side of the image.

TESTIMONIAL

"We love our home. The experience with Hawke's Bay Homes was easy, stress free with great communication. Even when we didn't know what we wanted, the teams advice and ability to keep us within our budget took all of the stress, that normally comes with a house build, away."

FAQS

Can I visit Hawke's Bay Homes?

Yes, we would love to show you around. Please make sure to make an appointment with us prior. When you meet us at 1139 Maraekakaho Road, Hastings you can ask us all of your home building and house design questions. We will be able to show you our designs as well as buildings that are currently under construction.

Contact us today to [make an appointment](#) or visit our website for more information. Our opening hours are Monday to Friday 8am to 5pm. (06) 870 8979 or office@hbhomes.nz.

Can I make changes to your standard plans? Can I design my own plan?

We have a range of standard floor plans that can be modified to ensure you get the home that suits your needs and lifestyle. Please keep in mind that our standard Hawke's Bay Homes ranges, which are shown on our website, are the most cost effective and efficient to construct.

Yes, you can design your own plan with our designer, which is an exciting process to go through. Please note that this can add an additional two to three months to the process.

Do you undertake the consent process?

Yes, all of our Hawke's Bay Homes buildings come with a Building Consent and Code Compliance Certificate.

Do Hawke's Bay Homes come with a warranty?

Hawke's Bay Homes is a member of New Zealand Certified Builders and can offer you the NZCB Halo 10-year residential guarantee. This allows you to build with peace of mind.

Can you transport out of Hawke's Bay?

Yes, we transport throughout the North Island and also have shipped houses to the South Island.

Does Hawke's Bay Home build commercial buildings?

Yes we do and have been for a number of years. We can provide you with multiple solutions for projects such as police stations, offices, RSE facilities, class rooms, accommodation and medical centres.

Pre-fabricated commercial builds have the advantage of reducing building time frames for projects as we don't have any weather delays, our builds have higher quality control as well as reduce on-site disruptions.

How to contact us?

Contact us today to make an appointment **06 870 89 79** or [**office@hbhomes.nz**](mailto:office@hbhomes.nz).

BESPOKE DESIGNS (CUSTOM BUILDS)

We recommend to browse through our selection of house models and find the floor plan that best suits your lifestyle and requirements. The most efficient and most cost-effective option is to choose one of our standard floor plans.

If you wish to create something custom (we call these bespoke designs) we will put you in touch with our architect, who can design your ideas or modify our plans to suit your needs best. Please note that additional design fees may apply and can add an additional two to three months to the process if plans are drawn from scratch.
